Front-end Web Developer (VueJS)

Description

Susankya Tech is seeking a candidate with 2+ years of professional experience as a front-end web developer.

REQUIREMENTS

- Full grasp of JavaScript and CSS
- Must have at least two years of professional experience in the related field
- Must have strong knowledge of VueJS (if you're experienced with React or Angular, you may apply too)
- Must have strong understanding of and experience with state management and authentication
- Must be able to write good code to properly and efficiently consume RESTful APIs
- Must have experience working with PWAs (Progressive Web Apps) and building web apps that are responsive and mobile-first designed
- Good understanding of CSS pre-processing platforms, such as LESS, SASS, etc.
- Basic knowledge of WordPress (optional, plus point)
- Good knowledge of Adobe Photoshop, Illustrator and relevant platforms
- In-depth understanding of the entire web development process (design, development and deployment)
- Working understanding of web infrastructure and scalability.
- Comfortable in agile development processes
- Optimize applications for maximum speed
- Collaborate with back-end developers and web designers to improve usability

HOW TO APPLY

Salary will be based on the experience and skills. If you feel you're the right candidate for this position, send us your application to info@susankya.com or apply [here](#).
